

Restricted Access Guidance Publication Placeholder

Scottish Health Facilities Note 03-04

Lockdown: Controlling movement and access within
healthcare facilities

A Framework for NHSScotland

Restricted Access Placeholder

Access to SHFM 03-04

The guidance publication referred to above contains information which could undermine the security of NHS Scotland healthcare facilities if misused. To mitigate this risk, the guidance has been cascaded directly to health and social care facilities and it is not available on the public internet.

This Restricted Access Placeholder has been uploaded in place of the Guidance Publication. If you require a copy, please make contact as indicated in the Enquiries section below.

We reserve the right not to share this Guidance Publication with organisations and persons who are unable to demonstrate an appropriate requirement for the information it contains.

Enquiries

Enquiries and requests for a copy of this Guidance Publication should be sent to:
