

# Call with Alice Macleod 19/04/2022

19 April 2022 11:00

From notes taken on a call with Alice Macleod former SN at NP regarding the NSQIG and EIA with myself (P. Smith Senior Nurse, NP)

- Report published by NSS
- Approval from SEND (representation from across all HBs)
- Ownership as described in report - Chair of group
- Companies were asked to place their products between L1 & L2
- VB placed theirs on L2 but nurses placed VB on L1
- Recommendation to remove L1 from prescription
- NSQIG followed VB Healthcare and EB Medicine on their deliberations
- NSQIG committed to Realistic Medicine
- Lack of evidence of garments in L1
- NSQIG worked closely throughout with industry - BHTA
- Decisions were by group consensus
  
- NSQIG informed Stoma Fora of their work - this is in the report(s).
- NSQIG were invited to 2 Stoma Fora (Lothian & Ayrshire by memory)
- Neither Stoma Fora or industry on NSQIG
  
- **EIA - No full EIA completed as not required. Aims based on evidence of efficacy in determining one garment from another**
- **No impact was envisaged on any protected groups.**
