## These minutes reflect the salient points of discussion

Agenda Item	Discussion points	Action Lead
1	Tracy McMeekin (Chair) opened the meeting and apologies noted above.	
	Papers circulated for meeting :	
	Agenda , Minutes from 17.02.17, Questionnaire Results v3.0 ,Progress Notes	
2	Minutes from meeting 16.02.17 were reviewed and approved	
	Action : Approve & File	AM
3	Feedback from Health Information Scotland ( Health Technology Assessment )	TM
	Tracy reported on feedback from HIS and circulated a Topic Exploration paper from HIS.	
	Findings: HIS report that Health Technology Review would not be suitable due to lack of	
	evidence to review.	
	Tracy & Group agree that the HIS Topic Exploration paper is valuable in confirming the lack	
	of robust evidence regarding effectiveness of support garments in prevention &	
	management of parastomal hernia.	
	Action : No further action	
4	Feedback from BHTA	ВН
	Billy discussed response from BHTA meeting regarding Support garment categorisation	
	template;	
	Template was reviewed by BHTA members & nurse representative from ASCN	
	BHTA reviewed & amended template circulated for discussion (BHTA final version)	
	Note BHTA meeting advise support level: 1 &2 with rating and descriptor to match 1&2	
	Wide discussion from group on BHTA template with agreement that the BHTA support level	
	amendments may enable identification of products that do not require prescription (level	

## Scottish Stoma Nurse Group: Support Garment Review SLWG

	Tay 1.1 (1.1 (1.1 (1.1 (1.1 (1.1 (1.1 (1.1	
	1) and those that may require prescription (level 2)	
	Billy recommends that Suppliers need to populate the table with their products to enable	
	SLWG CNS to review.	
	Discussed that supplier product categorisation information would enable identification of	
	support garments that would fit with pathway and identify products that could be removed	
	from the stoma prescription list.	
	Actions:	
	Billy to arrange for NP team to compile list of suppliers& product data and ask	ВН
	that suppliers populate their garments to support Level 1 &2	ВН
	<ul> <li>Copy of BHTA comments &amp; template to be circulated to group</li> </ul>	ВН
5	Questionnaire version 3.0	
	Version 3.0 of questionnaire results circulated with draft discussion & recommendation	
	Aim of questionnaire was to review current Stoma CNS practice across NHS Scotland	
	regarding access and prescribing practice for support garments for prevention and	
	management of parastomal hernia.	
	The results of the questionnaire is to inform future practice and guide development of a	
	nursing management pathway for parastomal hernia prevention & management	
	Results report variation in practice across Health Boards question 3 - 8	
	Action:	
	CNS group to review the paper discussion & recommendation section and send	SLWG
	any comments to Alice Macleod : Timeline for comments w/c 22.05.17	CNS'S
6	Pathway	
	TM reported that the SLWG CNS are progressing the draft pathway noting areas that	
	require agreement & clarification such as follow up	
	Action	
	TM to send copy of draft pathway to Billy & Alice for information	TM
7	Progress on Objectives	
	AM has complied the progress notes to remind the SLWG of agreed objectives from terms of	
	reference and current progress.	
	TM commented on progress 6 ratification process	
	AM explained that the SLWG will produce a report that details NS Scotland support	
	garments for prescription aligned to NHS Scotland Stoma Nurse Pathway.	
	The report will detail methodology of SLWG to support decision making.	
	SEND ( Scottish Executive Nurse Directors ) group , Therapeutics SG, Effective Prescribing	
	Programme Board as potential groups to endorse SLWG report & recommendations	
	Actions	
	SLWG to review the progress notes and send any comments to Alice Macleod	ALL
7	AOB	
	AM reported that all Health Boards are currently looking at stoma re-design particularly in	
	community. Commonality is to remove G.P prescribing as this is an area where there is	
	influence from suppliers. This is still at early stage with HB looking at alternative to G.P	
	prescribing.	
	AM reported that PrescQipp is a national not for profit organisation that is involved with	
	prescribing efficiencies. Extensive portfolio of work and includes stoma & continence with
