Subject: Re: POTS meeting

Dear all,

Many thanks to Camilla for the introduction. Unfortunately, I have clinic today and I am unable to change the appointment times so I cannot attend. I was so keen to, and in future if I know the date well in advance can change things. This time I would be happy to contribute by email if there were any ongoing discussions. I hope to meet you all soon

Best wishes

Claire

Good afternoon all,

Welcome to Claire Taylor who we hope might be able to join us going forward 😊

Below is a summary of things still to do

- A separate page that has some scene setting/clinical statement/background/explanation of why and who developed/bit on governance. This separate page may also give a bit of background as to how many pts are likely to need additional support with their POTS.
- Camilla to check if the investigations are in line with the investigations on the GP assessment guideline
- The drugs!!
- Consider where this guideline should go. It will go to HB leads, in the implementation support note on SIGN, but these are all associated with long covid. Where else?
- Wording for the 'onward referral/further management' section

Hope you all can make it!
