

**Table noting sections of paper “Appendix 18 – DRAFT PDB Feb 2025 1.2 Feasibility Report Draft v0.3” which were in draft and undergoing validation and updates.**

NB: The information in the below sections should not be considered finalised, validated data. Finalised and validated data can be found in the final report which has been supplied as part of the FOI.

<b>Page number</b>	<b>Information</b>	<b>Note</b>
5	Information outlining final options	Discussions surrounding the recommendations have taken place following this draft version. Please refer to the final paper for updated, current and accurate information
14	Figure Z	Data not validated – valid data accessible in the final paper
15	Figure Y	Information not validated – valid data accessible in the final paper
16	Figure X	Data not validated – valid data accessible in the final paper
19	Information outlining patient transport	Discussions were ongoing at this point – updated and validated information accessible in the final paper
22, 23 and 24	Graphs on staffing and infrastructure, current and predicted models	Data not validated – valid data accessible in the final paper
25 and 26	Patient pathways and systems mapping	Data not validated – valid data accessible in the final paper
28	Epidemiological data	Data not validated – valid data accessible in the final paper
30	Table Z	Data not validated – valid data accessible in the final paper
31	Procedure types and demand	Information not validated – valid data accessible in the final paper
33 and 34	Graph and table procedure types split per procedure	Data not validated – valid data accessible in the final paper.
35	Information surrounding data on pages 33 and 34	Data and information not validated – valid data and information accessible in the final paper
36 and 37	Data table, and information surrounding procedure type and predicted demand	Data not validated – valid data accessible in the final paper

37, 38, 39, 40 and 41	Data graphs and information around outcomes and disparities	Data and information not validated or complete – accessible in the final paper
41 and 42	Population demographics	Information not validated – valid data accessible in the final paper
46 - 52	Full section 3C.1 Human Resources All information, graphs and tables relating to Human Resource requirements	Discussions were ongoing at this point – updated and validated information accessible in the final paper
52 - 54	Full section 3C.2 Infrastructure All information, graphs and tables relating to Infrastructure requirements	Discussions were ongoing at this point – updated and validated information accessible in the final paper
54 - 57	Full section 3C.3 Financial Resources All information, graphs and tables relating to Financial requirements	Discussions were ongoing at this point – updated and validated information accessible in the final paper
59	Total procedures	Data not validated – valid data accessible in the final paper
60 and 61	Graph and table procedures and predicted demand	Data not validated – valid data accessible in the final paper.
63, 54 and 65	Information around option 5	Discussions were ongoing at this point – updated and validated information accessible in the final paper
65 - 70	Full Section 4A.2 Recommended Model Overview All information, graphs and tables related to the recommended model overview	Discussions were ongoing at this point – updated and validated information accessible in the final paper
70 - 85	Full section 4B Feasibility Assessment All information, graphs and tables related to the feasibility assessment	Discussions were ongoing at this point – updated and validated information accessible in the final paper
85	Milestone table	Discussions were ongoing at this point – updated and validated information accessible in the final paper
86	Stakeholder engagement	Discussions were ongoing at this point – updated and validated information accessible in the final paper
86	Training and support	Discussions were ongoing at this point – updated and validated information accessible in the final paper

87-89	Performance metrics	Discussions were ongoing at this point – updated and validated information accessible in the final paper
89 and 90	Section 7.1 Conclusions	Discussions were ongoing at this point – updated and validated information accessible in the final paper
90 - 92	Section 7.2 Conclusions	Discussions were ongoing at this point – updated and validated information accessible in the final paper
93 - 97	Appendices	Updates to appendices were made following the updates to the body of the paper
