Understanding your Practitioner Profile - Ortho

A Practitioner Profile provides orthodontic specialists with information on their earnings, registrations and treatment activity patterns, for their list number(s) in comparison to other orthodontic specialists within Scotland.

The report is split into two sections:

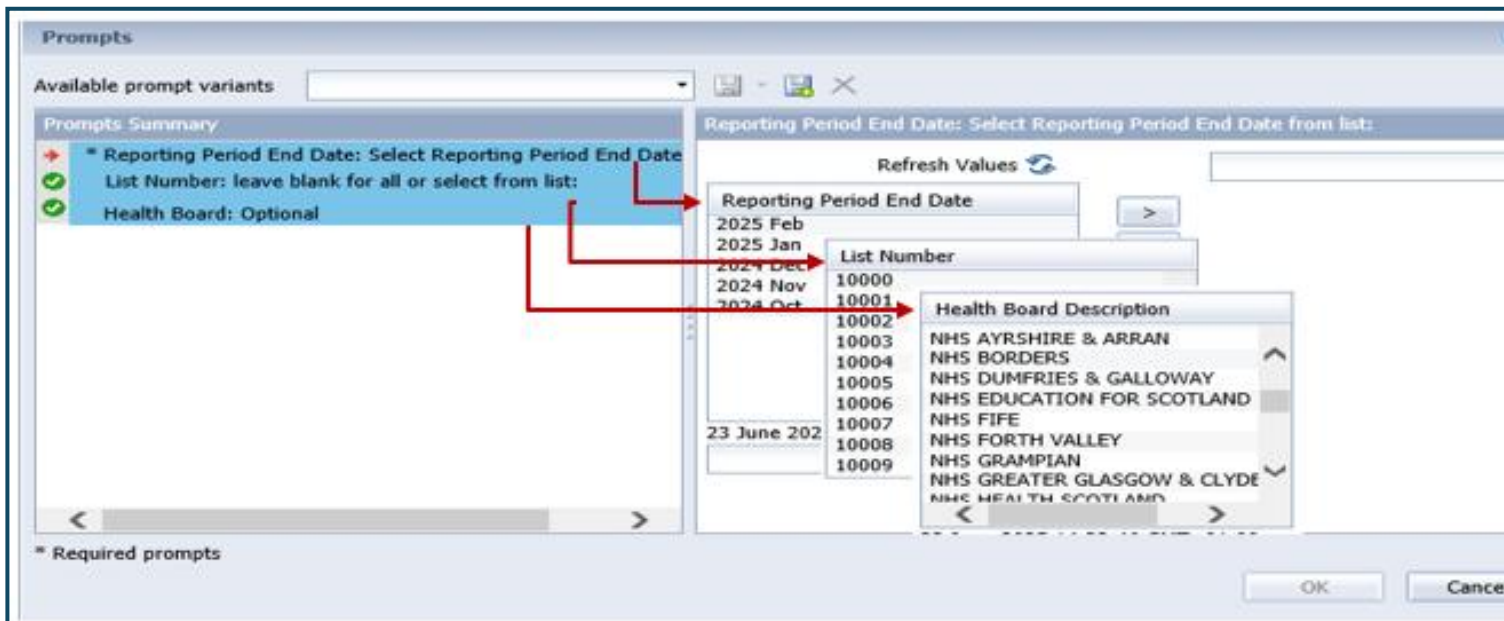

1. Fees Authorised
2. Analysis of Treatment

The report sits alongside the eSchedule reports which are available via Business Objects.

Section I contains items from SDR 161 (1st November 2023) onwards. Section IX will contain items with an acceptance date prior to and after 1 November 2023 but will only show figures for paid claims.

Note: eSchedule contacts within a practice will not be able to run and view the reports for other dentists in the practice. They will only be able to run and view their own.

NOTE: All figures displayed in this guidance document are for illustration purposes only.

REPORTING PERIOD END DATE

This is a mandatory prompt. The month selected represents the last day of that month, for example '2025 Feb' is 28th Feb 2025. When you select this month to run the report it will bring back the dentist's activity for the previous 12 months. In this example it will be for the period 01/03/2024 to 28/02/2025. If you select '2025 Jan', it will bring back activity for the period 01/02/2024 to 31/01/2025 and so on. The earliest activity to view is for the period 01/11/2023 to 31/10/2024 which you would do by selecting 2024 Oct.

LIST NUMBER

You can run a report for your own list numbers only. This report is not visible to the eSchedule contact.

HEALTH BOARD

If you work across multiple Health Boards, you can select a specific Board to be run.

Total Gross Fees = All Items of Service

Average (mean) cost = $\frac{\text{Item of Service from all cases (£)}}{\text{Number of courses of treatment}}$
 Therefore, in this example $\frac{382071.98}{1371} = \text{£}278.68 \text{ per treatment}$

The categories Exemption / Department of Social Services Remission, Prior Approval and Referral fees are broken down to show their percentage contribution to your Total Gross Fees. The Prior Approval percentage is calculated below:

$$\frac{\text{Prior Approval}}{\text{Total Gross Fees}} * 100$$

Therefore, in this example: $\frac{333594.40}{382071.98} * 100 = 87.3\%$

Fees Authorised		Amount	Your List Number	Scotland Wide
Total Gross Fees:		£382,071.98

NOTE: All figures displayed in this guidance document are for illustration purposes only.

The 'Number of Treatments' shows the total number of treatments carried out.

Each item shows the total number of unique patients receiving the treatment. A patient is counted once even if they received the same treatment more than once.

The 'Normal no. treatments' (sometimes called the Mode) is the number most commonly occurring. It refers to the most common number of treatments per patient.

E.g. The set of 24 cases below gives the number of treatments carried out per patient:

2, 2, 3, 4, 2, 2, 3, 1, 6, 3, 1, 3, 5, 2, 2, 3, 5, 4, 2, 3, 2, 2, 2

The most common or NORMAL number of treatments per patient is 2.

			Number of Unique Patients	Number of Treatments	Your List Number		Scotland Wide
