

Annex A

In each of the last five years, what was the number and proportion of GP Registrars that gained their Certificate of Completion of Training (CCT) after three years or less on their General Practice Speciality Training programme.

The below table details the total number and percentage of GP Registrars who gained their CCT after three years or less (≤ 3 yr) over the last five years.

Table 1

	2021/22		2022/23		2023/24		2024/25		2025/26	
	≤ 3 yr	> 3 yr	≤ 3 yr	> 3 yr	≤ 3 yr	> 3 yr	≤ 3 yr	> 3 yr	≤ 3 yr	> 3 yr
CCT	147	111	145	104	165	125	180	112	144	134
Proportion	50%		45%		49%		56%		45%	

In each of the last five years, what was the mean and median length of time for a GP Registrar to complete their General Practitioner Speciality Training, from commencement to Certificate of Completion of Training?

The below table details the mean and median length of time (in years) for a GP Registrar to complete their General Practice Speciality Training over the last five years.

Table 2

Year	Mean (Average)	Median
2021/22	3.72	3.24
2022/23	3.67	3.25
2023/24	3.76	3.27
2024/25	3.71	3.25
2025/26	3.72	3.42

In each of the last five years, what was the number and proportion of a) GPST1, b) GPST2, and c) GPST3 cohorts that received an extension to their training via ARCP Outcome 3.

The below table details the total number and percentage of General Practice Speciality Training (GPST) trainees who received an extension to their training over the last five years via ACRP Outcome 3.

Table 3

Specialty: General Practice										
ARCP - Outcome 3	2021/22		2022/23		2023/24		2024/25		2025/26	
ST1	*		*		8	2.04%	6	1.35%	*	
ST2	*		*		7	1.80%	8	1.98%	*	
ST3	51	11.35%	70	15.02%	76	14.39%	74	14.56%	108	20.97%
Grand Total	61	4.97%	86	6.87%	91	6.96%	88	6.49%	116	8.07%

* Under Section 38(1)(b) of the FOISA data where the figure is less than five has been suppressed. Secondary suppression has also been applied to some cells where the data is over five as it is possible to deduct the hidden numbers under five by calculation.

This information is considered to be personal data. By disclosing all or part of this information it may be possible for persons to be able to identify themselves or others. Individuals have a reasonable expectation that this personal information will not be disclosed.

In each of the last five years, what was the mean and median length of time for a GP Registrar to complete their training if:

a) they did not receive additional training time ARCP outcome at any time during their training

The below table details the mean and median length of time (in years) for GP Registrars who did not receive additional training time (no previous outcome 3) to complete their General Practice Speciality Training over the last five years.

Table 4

Year	Mean (Average)	Median
2021/22	3.87	3.51
2022/23	3.81	3.56
2023/24	3.82	3.60
2024/25	3.73	3.50
2025/26	3.66	3.48

b) did receive at least one ARCP outcome that required additional training time.

The below table details the mean and median length of time (in years) for GP Registrars who did receive additional training time (received an outcome 3) to complete their General Practice Speciality Training over the last five years.

Table 5

Year	Mean (Average)	Median
2021/22	4.54	4.26
2022/23	4.51	4.39
2023/24	4.59	4.41
2024/25	3.71	3.22
2025/26	4.35	4.21
