* Under [Section 25 of FOISA for “Information Otherwise Accessible”](#) the most recent financial position for both capital and allocations into PSD Scotland Digital and Security can be found in the URL to the PSD Scotland Board Papers:

https://publicservicesdelivery.scot/media/w4ae04by/psd-scotland-board-meeting-18926-combined-reports_updated.pdf

** PSD Scotland produces one Annual Delivery Plan per financial year, due to the commissioning process, and the way we work with our sponsors. All projects listed above are confirmed to be a PSD Scotland Digital and Security Project conducted (in at least part) through 1 April 2026 to 31 March 2027.

It is rare we get full project funding, and we do not receive future years agreed upfront as it is a year on year process. The way our delivery framework, and the funding model works is through refinement, as we need to go through each stage (Strategic Case, Outline Case, Full Business Case) to secure, quote and confirm the funding for the next stage, and apply (which could be a multi-year wait for funding).

*** Under [Section 25 of FOISA for “Information Otherwise Accessible”](#) supplier and contractors procured is published via other mandatory procurement processes on the [Public Contracts Scotland website](#).

In order to search the website, whilst on the homepage click on 'Search Notices' at the top left hand side of the screen (boxed in red in the image below).

Once on the “Search Notices” page, in the “Buyer Name” box (boxed in red in the image below) type in “The Common Services Agency” and click on “Search Notices”. The Common Services Agency is more commonly known as PSD Scotland. This will return all the contracts for PSD Scotland.
